WCM Plus

Easy to use

- ▶ **For operators:** the WCM Plus is a ready-to-use smart module. It automatically identifies the DNP printer and type of consumable inserted to propose the photo formats available for printing.
- ▶ **For users:** Logs them in to the WCM Plus's WiFi network in just a few clicks and prints their photos instantaneously.

Optimised connectivity

- ▶ The WCM Plus can be connected to a broad range of devices: computers, phones/tablets & digital cameras with integrated WiFi* or SD card (EZ Share®).
- ▶ Connected to a WiFi network, it becomes a WiFi access point for users allowing them to combine photo printing and sharing on social media.
- ▶ Three USB ports are provided to connect up to three printers from the DNP range: QW410, DS620, DS820, RX1HS, DS40, DS80

**with the WiFi FTP protocol*

Powerful WiFi

- ▶ The WCM Plus allows you to connect several devices or people (5 devices connected simultaneously recommended for optimum use).
- ▶ The power of the WiFi generated ensures an ultra-fast transfer of images while keeping the resolution of the photos sent.

Photo customization tool

- ▶ A wide choice of integrated photo frames that will adapt to your customers' events.
- ▶ With this same tool you can create your own frames for even greater personalisation.
